WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Nagornovskiy Army Barracks is located on the southeastern edge of Nagornovskiy, 9 kilometers (km) south of Murmansk and 3 km north of Kola. There is a large training area extending to the east (Figure 1).

This installation covers 495 acres and contains 3 administration/troop housing areas, 4 storage areas, 2 equipment storage/maintenance

areas, 3 athletic fields, a heating/power plant, and a possible electronics or communications area (Figures 2 and 3).

This installation was covered by KEY-HOLE missions from [REDACTED]. Comparative analysis revealed continued usage and little, if any, seasonal variation.

DESCRIPTION OF INSTALLATION

Railroad Service

A large railroad yard is located 3 km south in the town of Kola.

Road Service

The main road leading south from Murmansk passes through the installation, which has a good internal network of roads and trails.

Aircraft Landing Strip

Murmansk/Kola Airfield [REDACTED]
[REDACTED] is located 8 km south.

Administration and Troop Housing Areas

Area D1 contains 1 multistory administration building, 4 single-story administration buildings, 51 single-story barracks/quarters, 2 multistory barracks/quarters, 21 support buildings, and 2 storage buildings (each separately fenced).

Area D2 contains 3 multistory administration buildings, 6 single-story barracks, 13 single-story barracks/quarters, 11 single-story quarters, and 1 support building.

Area D3 contains 1 single-story T-shaped administration building, 9 barracks, and 2 support buildings.

General Storage Areas

Area E1 contains 1 administration building, located outside the fenced area, 3 support buildings, 14 storage buildings, and a large amount of open storage.

Area E2 contains 1 storage building.

Area E3 contains 11 small storage buildings.

Area E4 contains 25 storage buildings and 1 security building.

POL Storage Area

POL is stored in the town of Kola and due west of the airfield.

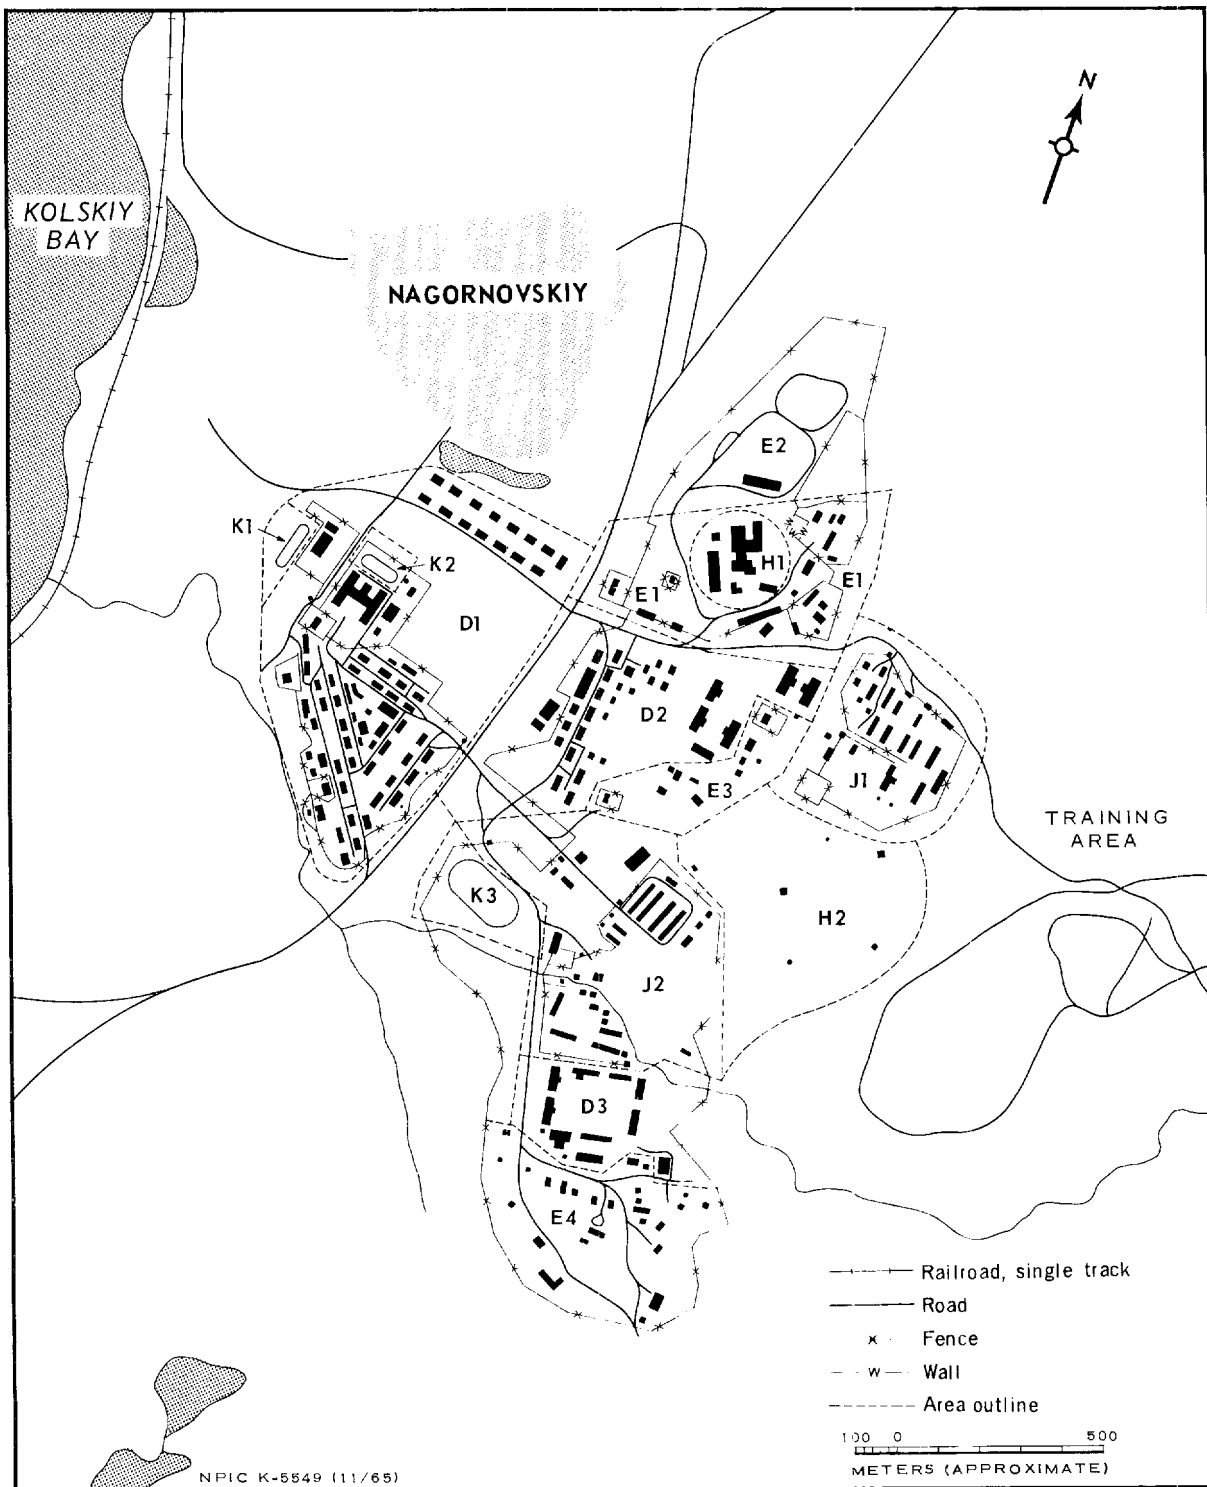

Other Buildings

Area H1 contains 1 probable large heating/power plant and 4 probable support buildings.

Area H2 contains 3 unidentified circular structures, 1 unidentified square structure with 4 holes, 1 unidentified structure under construction, and 2 possible masts. The area may be communications or electronics associated.

Equipment Storage/Maintenance Areas

Area J1 contains 17 vehicle storage/maintenance buildings (nine 115 by 20 feet, four 50
